

# Justo 2 Yellow

# Justo 2 Yellow

A top-level model, used by pro riders in races and training.

The trainer of true champions

Automatic Calibration

**Justo 2 Yellow** returns in a bold yellow version, inspired by the colors of the most iconic stage race. This top-of-the-range trainer comes with a **pre-installed 12-speed cassette, accuracy within <1%** thanks to its integrated power meter, and automatic resistance management with gradients up to 24%.

Built-in Wi-Fi connectivity delivers an advanced training experience, while the two sets of Flex Feet allow the trainer to replicate the bike's natural movement, adapting to your riding style. Plus, with **36 months of free access to the My E-Training app**, you're ready to train like a true champion from day one.

**Justo 2 Yellow** combines **cutting-edge technology** with a **unique style** inspired by the colors of the world's most iconic cycling race. Equipped with a **pre-installed 12-speed road cassette, an integrated power meter** with <1% accuracy and **Wi-Fi connectivity**, it's the ultimate smart trainer to push your performance to the limit. It includes **36 months of free access to the My E-Training app** and two sets of **Flex Feet**, for a fully tailored experience that adapts to your riding style.

**Justo 2 Yellow** is ready to ride: the trainer performs **automatic calibrations** to ensure consistent performance over time, with no action required.

## Train Anywhere

The trainer offers **two stand-alone modes** so you can train anywhere, even without app connection or power supply. If powered but not connected to software, you can preset a **gradient up to +24%** via the My E-Training app, which is then maintained offline. Without connection or power, you can set the **brake resistance level** (1 to 16) in the app before your outdoor training session. Instructions for enabling stand-alone mode are available in our **Knowledge Base**.

## Bridge with Heart Rate Straps and Cadence Sensors

With the Bridge functions for **cadence sensors and heart rate monitors**, you can connect a heart rate monitor or cadence sensor to the trainer, transmitting the data to your training app via ANT+ FE-C and Bluetooth FTMS in a single connection.

**Justo 2 Yellow** can also create a **virtual heart rate** monitor to transmit your data via Bluetooth® in case your strap's protocol is not compatible with the app or device you are using.

## Dual Bluetooth® Channel

**Justo 2 Yellow** is equipped with **dual Bluetooth®**, allowing you to connect two Bluetooth® devices at the same time, such as a bike computer and a training app.

## Shimano Di2® Pairing®

The **Shimano Di2® pairing** function lets you **manage the resistance level in stand-alone mode** when the trainer is powered, or **pause the brake for 60 seconds** during app use, using the buttons on your bike's electronic shifters.

## Reliable and uninterrupted data stream

If Wi-Fi cannot be used, **Justo 2 Yellow** also offers the option of a wired connection with the **Elite Gateway Wired Ethernet Dongle**. This accessory, available in the shop, connects directly to your router or computer with an Ethernet cable, ensuring a reliable and uninterrupted data stream, ideal for competitive esports races.

Easy Start, Power Smoothing e Supertuck  
immediata su Zwift

Works with Rizer, Aria, and Zwift Cog & Click

**Justo 2 Yellow** offers **four power data display modes** in ERG mode, available on My E-Training through the **Power Smoothing** function. **Easy Start** makes resuming intervals after short pauses easier, while with the **Supertuck** function the trainer instantly drops the power reading to zero as soon as you stop pedaling. This allows Zwift to immediately detect the absence of effort and automatically activate your avatar's aerodynamic position.

With **Justo 2 Yellow** you can make the most of the best indoor training technology. The trainer is compatible with **Rizer**, Elite's gradient simulator with integrated steering, which tilts the bike **uphill and downhill while** letting the handlebar turn as it would on the road, engaging the same muscle groups you use outdoors. The ecosystem is completed by **Aria**, the smart fan that adjusts airflow based on your training intensity.

Updating the firmware via Wi-Fi also makes **Justo 2 Yellow** compatible with all the virtual shifting functions of **Zwift Cog and Click**. Swap or replace your cassette with the Zwift Cog and mount Zwift Click on your handlebar to take full advantage of Zwift's new training possibilities.

You can purchase the **Cog and Click Upgrade Pack** with **€20 / £20 / \$20** off here:

EU - <https://zwiftinc.sjv.io/E0bGE4>

UK - <https://zwiftinc.sjv.io/oNRP49>

US - <https://zwiftinc.sjv.io/5kam5L>

## The Setup That Transforms Your Training

**Justo 2 Yellow** is also compatible with **Square**, Elite's smart frame with advanced virtual shifting, allowing you to **replicate your bike down to the exact configuration of every component**.

Simply remove the cassette and mount the Elite smart frame adapted to your bike's size to access a fully personalized training experience. With Square, you train as if you were riding your outdoor bike.

Square can be shared with other users thanks to its **seven adjustment** points on saddle, handlebar, top tube, and crank arms, giving you up to **five profiles** to save different setups of gears, cogs, and chainrings in the dedicated app.

## Full App Compatibility

**Justo 2 Yellow** connects to any cycling app thanks to **ANT+ FE-C, Bluetooth**, and **Wi-Fi**, giving you full control from computer, smartphone, bike computer, and smartwatch.

With your purchase, you get **36 months of free My E-Training** access, plus full compatibility with leading cycling platforms such as **Zwift, MyWhoosh, Rouvy, Kinomap** and many others.

## Performance Meets Responsibility

**Justo 2 Yellow** was created in collaboration with **Adriano Design**, with the goal of building a more integrated, essential, and functional indoor ecosystem. The result is a solid and compact trainer, designed to guarantee **stability and long-lasting durability**, while also interacting with other Elite technologies and adapting to the real needs of everyday training.

But there is more: already from the design stage, every choice has been guided by **environmental responsibility**, reducing unnecessary materials and favoring sustainable processes.

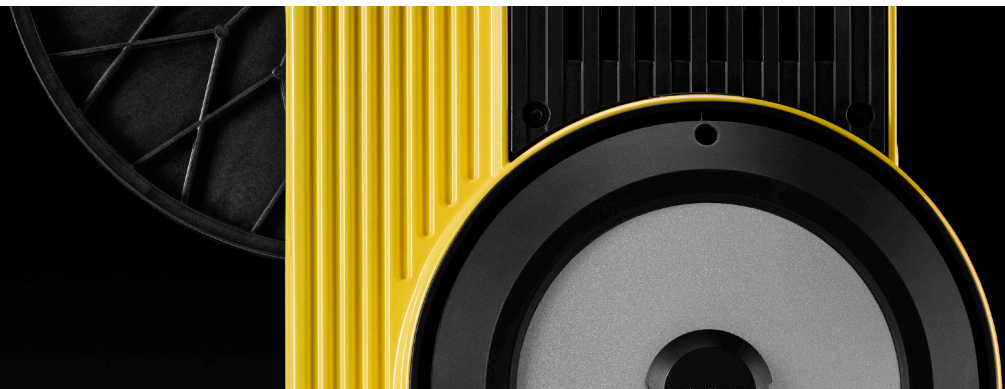

## Sustainability as Part of the Project

**Justo 2 Yellow** was born from racing spirit but also looks to its impact. Its structure is made of **more than 46% pre-consumer recycled plastic**, following a circular approach that reduces fossil-based materials from the design stage. A concrete choice, built to last and built to matter.

## Features

Home Trainer Type	Smart direct transmission home trainer
Sprocket Cassette	Included 12-speed Road cassette
Power Meter	Integrated OTS (Optical Torque Sensor)
Accuracy	<1%
Wireless Communication	Wireless: ANT+ (FE-C, Power, Speed&Cadence), Bluetooth® (Zwift Protocol, FTMS, Power, Speed&Cadence), WiFi (2.4GHz Direct Connect Protocol) Wired: Ethernet ( Direct Connect Protocol con Elite Gateway)
Max slope simulated	24%
Automatic calibration	Yes
Firmware update capacity	Yes
Rizer compatible	Yes
Square compatible	Yes
Max power	1100 Watt (20km/h) - 2300 Watt (40km/h)
Flex feet	Included Red and Black Flex Feet with 7° and 4,5° lateral sway
Control via	Smartphone, tablet, bike computer, sports watches, Windows and Mac. Computer ANT+™ and/or Bluetooth
Compatible with	My E-Training software & app Zwift, Trainer Road, Kinomap and more
Pedal Analysis	Available for purchase on My E-Training
Output	Power, speed and cadence
Flywheel	7,2 kg / 15,87 lbs
Front wheel support	Included

## Bike compatibility

Road bikes, gravel bikes, mountain bikes, and city bikes.  
Compatible with Elite's Square smart frame and Zwift Ride (when using the Zwift Cog).

Included adapters for:  
Quick release Ø 5x130-135  
Thru-axle Ø 12x142

Adapters available for:  
Thru-axle Ø 10x135-12x135 (cod. 1014306)  
Specialized SCS Ø 12x135 (cod. 1014087)  
Boost Ø 12x148 (cod. 1014303)  
Super Boost Ø 12x157 (cod. 1014346)

## Cassette compatibility (freehub included)

Shimano®/SRAM 9/10/11 speed  
Shimano® 12 speed road  
SRAM SX 12 speed  
SRAM NX 12 speed

## Freehubs available

Zwift Cog (Replace your cassette with the Zwift Cog to unlock virtual shifting features offered by the Zwift Click).

Shimano Micro Spline (cod. 1014315)  
Campagnolo (cod. 1014233)  
SRAM XD/XDR (cod. 1014279)

## Includes

36-month free subscription to My E-Training software & app

## Specifications

### Power supply data

Input 100-240 volt 50-60 hz - Output 12 volt 1,5A

### Open size (L x W x H)

570 x 720 x 520 mm / 22,44" x 28,35" x 20,47"

### Closed (L x W x H)

570 x 195 x 520 mm / 22,44" x 7,682" x 20,47"

### Weight

17 kg / 37,48 lbs

### Max Load

110 kg / 242,50 lbs
