

TECHNICAL SPECIFICATIONS

- Diameter: 74 mm / 2,91"
- Height: 144 mm / 5,67"
- Weight: 55 g / 0,12 lbs
Bling: 65 g / 0,14 lbs

MATERIALS

- AISI 304 stainless steel.
- Plastic plate.

The **Moreo** bottle cage, Elite's historical **side-entry bottle cage in stainless steel**, gets carried away with the latest trend in cycling and a stunningly iridescent finish with chrome plate.

FEATURES

Elite's bike gear introduces a new collection of the **Moreo** cage, the historical **high-resistance bottle cage in stainless steel**. Ideal when you're riding your bike over rough terrains on your mountain bike or gravel bike.

EASY INSERTION

Moreo is designed to ensure the **smoothest ease of insertion of the bottle** from all sides thanks to its wide snap-fit opening, which also makes it easy to remove the bottle on **bikes with smaller or sloping frames**.

MAX BOTTLE RETENTION EVEN ON GRAVEL AND MOUNTAIN BIKES

The structure of the **Moreo** cage plays a part in keeping the bottle body firmly in place, both on its high and low sections, so there's **total retention** even when you're facing particularly bumpy roads, as on gravel tracks or mountain courses.

STAINLESS STEEL

The **Moreo** is made in **stainless steel**, which is a long-lasting alloy, resistant to consistent breaking loads.

NEW IRIDESCENT FINISH

The **Moreo** new collection includes a new model for your bike gear featuring **chrome plate** and **iridescent coating** designed to make any bike **frame shine** and stand out.

FOR ALL BOTTLES

With its **74 mm / 2,91"** diameter, **Moreo** accommodates all commercially available standard-sized bottles.

RECYCLABILITY

Steel is an infinitely recyclable material, that's why it's the most recycled worldwide.
