

TECHNICAL DATA

- **Maximum height:** 1500 mm / 59,05"
- **Weight:** 22.8 kg / 50,26 lbs
- **Maximum bike weight:** 45 kg / 99,20 lbs
- **Frame compatibility:** frames with a diameter from 18 mm to 45 mm / from 0,70" to 1,77"

CONSTRUCTION MATERIALS

- Aluminum and steel.
- Rubber.

FEATURES

A PROFESSIONAL MAINTENANCE STAND FOR YOUR BIKE

The Elite **Workstand TRS** is an all-in-one, practical tool designed to handle any mechanical intervention on your bike.

Its **sturdy steel base** provides exceptional stability and security during every operation.

With a **height-adjustable tubular frame** that reaches up to **150 cm**, the **Workstand TRS** simplifies every maintenance task, making it quick and effortless.

The **360° rotating clamp** arm allows you to work easily on any part of the bike, whether it's for daily maintenance in the workshop or cleaning at home.

Additionally, the stand features a **practical tool tray**, ensuring all your tools are readily accessible.

ADJUSTABLE HEIGHT, ROTATING CLAMP ARM, AND TOOL TRAY

The adjustable main body, combined with the **360° rotating clamp**, provides full access to every part of the bike, making it easy to work on different frame types and ensuring efficient, comfortable maintenance.

The tubular frame allows for height adjustment up to **150 cm**, offering optimal comfort during repairs.

The clamp's **rubber-coated jaws** protect your bike from scratches, while the **convenient tool tray** guarantees all tools are within arm's reach, making your work faster and more organized.
