

# Turno

# Turno

Fluid-resistance technology for realistic, quiet training.

Whisper-quiet at home

**Turno** is a direct-drive, fluid-resistance trainer designed to deliver an **immersive, quiet pedaling experience**.

**Resistance increases progressively** with speed, faithfully simulating road feel and enabling intense workouts without disturbance. Ideal for home use, it transmits speed, cadence, and power to leading training apps via the **Misuro B+ sensor**. A **12-month subscription to the My E-Training app** is included so you can start right away.

**Turno** delivers an authentic pedaling feel thanks to its **fluid resistance system**, which increases intensity progressively with speed to faithfully reproduce road conditions. You can tackle intense workouts at home without noise, maintaining maximum comfort even in shared spaces.

With **direct drive to the bike** and a **gel-based fluid resistance unit**, **Turno** is **extremely quiet**: you can complete hard sessions at home without noise, keeping comfort high even in shared environments.

### Data always under control

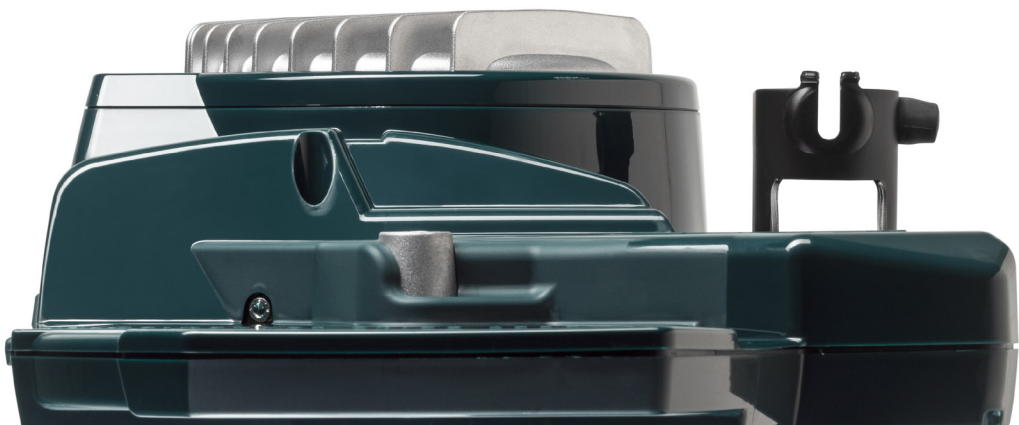

With the **integrated Misuro B+ sensor**, Turno records and sends **speed, cadence, and estimated power**. Compatible with ANT+™ and Bluetooth® Smart protocols, it communicates easily with popular apps such as Zwift, MyWhoosh, Rouvy, and many others, enhancing the quality of every workout.

### Total compatibility

Turno is versatile and ready to host every type of bike: road, gravel, mountain, and city. It **includes adapters for quick release (Ø 5×130–135) and thru-axle (Ø 12×142)**, with numerous optional adapters available. It supports Shimano®, SRAM, and Campagnolo cassettes up to 12 speeds, offering maximum flexibility to every cyclist.

### Compatible software

With purchase, you get **12 months of free My E-Training** and compatibility with apps such as **Zwift, MyWhoosh, Rouvy, Kinomap** and many more.

## Features

Home Trainer Type	Smart, direct transmission with fluid resistance and integrated Misuro B+ sensor
