

TECHNICAL SPECIFICATIONS

- **Height when unfolded:** 900 - 1100 mm / 35,43" - 43,30"
- **Height when folded:** 1200 / 47,24"
- **Weight:** 5 kg / 11,02 lbs
- **Maximum bicycle weight:** 18 kg / 39,68 lbs
- **Height adjustable.**

MATERIALS

- Aluminium and steel.

FEATURES

Workstand Race FC is the professional repair tool most used by the WorldTour pro teams.

Pre-assembled, foldable, easy to use and transport, this workstand has been designed to ease all bicycle fastening and removal operations both during daily workshop maintenance and when cleaning the bicycle at home.

The **rear stay support base** has been widened to improve bike stability and ensure greater compatibility with more modern frame designs.

LIGHT AND EASY TO TRANSPORT

Made in **aluminium with steel brackets** and components to ensure lightness and durability over time, the **Workstand Race FC** weighs only **5 kg** but holds a **max load up to 18 kg**. Easy to transport with small footprint thanks to its foldable structure, the workstand is ideal for "on the road" mechanical maintenance and for regular maintenance operations at home or in the workshop.

INTUITIVE AND READY FOR USE

Ready for use and pre-assembled, the **Workstand Race FC** features a **support arm for the bicycle** with self-locking mechanism, with an integrated self-locking ball lock pin so the system is even more stable in its working position.

Since it's possible to **rotate the upper part as desired**, even with the bicycle still on, the **Workstand Race FC** is perfect for maintenance, gear cleaning, chain substitution and other ordinary and extraordinary maintenance operations on your bicycle.

COMPATIBLE WITH ALL BICYCLES

The **Workstand Race FC**, **compatible with all bicycle models**, is **height adjustable** and features a new support base that ensures stability even with bigger bicycles. The workstand is compatible with all

commercially available bicycles, even those with disc brakes and 12 mm thru-axle. 15mm and 20mm thru-axle adapters are available for purchase on www.shopelite-it.com.

NEW FORK SUPPORT

The **Workstand Race FC** features a new, practical fork **support for you to fasten your bike by its front or rear fork**.

You can purchase an additional fork support on www.shopelite-it.com for those maintenance operations on both front and rear forks that require mechanical precision.

USED BY THE BEST WORLDTOUR TEAMS

The **Workstand Race FC** is perfect for both the most advanced mechanical work and the simplest maintenance operations, such as cleaning your bicycle.

This is an essential instrument for pro mechanics that need tools that are easy to transport during competitions.

The **Workstand Race FC** is the professional workstand used by some of the biggest names in the list of our WorldTour teams.
